

Sunrise Hub Project

Lucas Lytel

4/13/2020

By providing access to personal ActBlue fundraising pages and TrueLink debit cards, the Sunrise Hub Finance System (HFS) allows hubs to raise and spend their own funds while simultaneously allowing the national organization to track these funds, thereby ensuring compliance. Since December of 2019, the HFS has grown more than four-fold, with 10 hubs currently implementing the system. Still, with close to 50 Sunrise hubs in total, onboarding remains a priority. HFS onboarding has been streamlined with that in mind to allow for bulk processing of new applicants. Additionally, the HFS has processed a total of \$100,000 funds since it's launch in August, 2019, with an average of \$10,000 per month, allowing Sunrise to decentralize with self-sufficient hubs across the country.

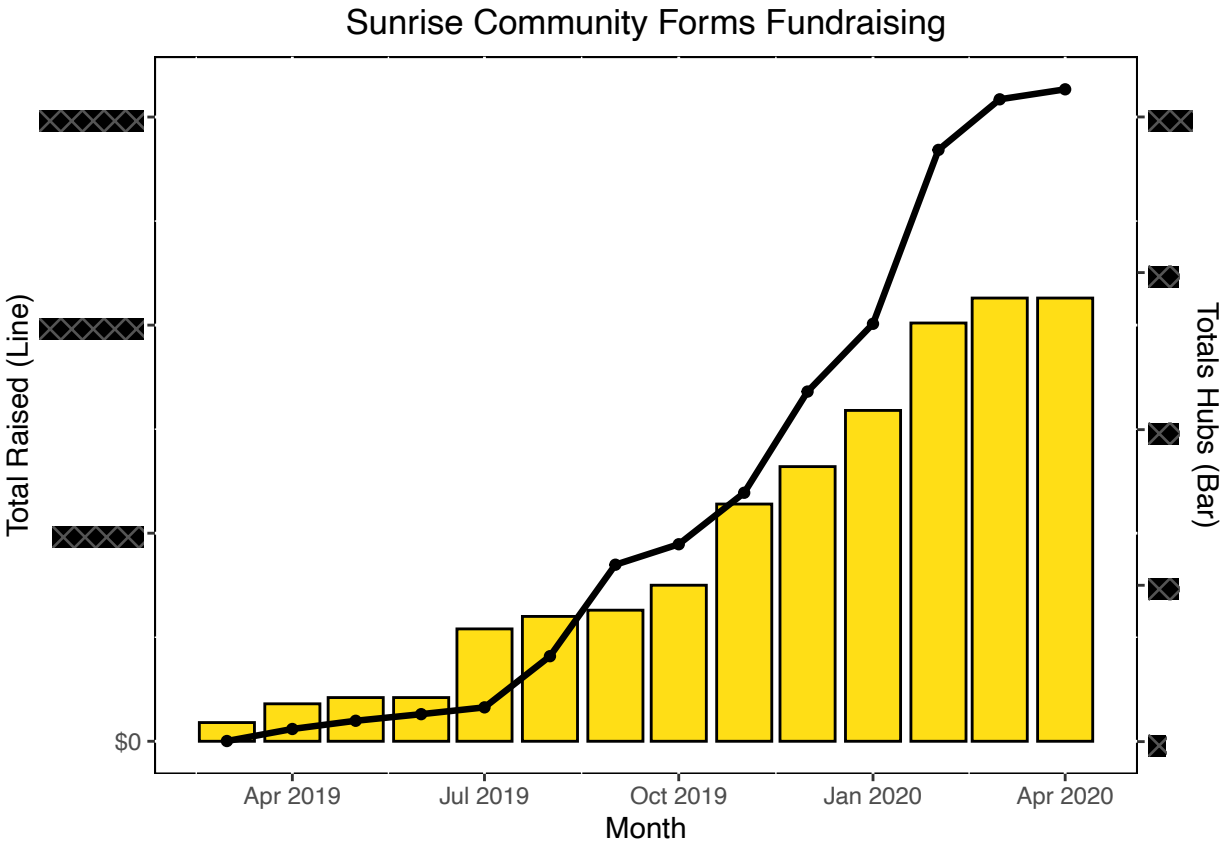

Table 1: Top 5 Raising Hubs

Form Title	Community Name	Total Raised
Sunrise Bay Area COVID-19	sunrisebayarea	\$████████
Sunrise Chicago	sunrisechicago	\$████████
Sustain Sunrise Providence!	sunrise-ri	\$████████
Support Sunrise Boston	sunriseboston	\$████████
Support Sunrise LA	sunrisela	\$████████
Support Sunrise DC	sunrisedc	\$████████
